TECHNICAL PROJECTS

Portfolio Profile | developer | <http://ec2-34-229-217-39.compute-1.amazonaws.com/>

A simple webapp using java spring html and javascript to highlight technical projects and my background

- Designed the layout myself in html utilizing bootstrap to make the content as attractive as possible
- Incorporated some more modern layout ideas and bootstrap components to showcase frontend design competency

Noco Moto Podcast Webapp | developer | <http://ec2-34-229-217-39.compute-1.amazonaws.com/>

A webapp for listening to the Noco Moto Podcast and discussion forums on each episode

- Created the database using MySQL with many to many relationships allowing users to create comments on episodes and links.
- Utilizing Resttemplate created a service to allow the app to update its database automatically from the api of the podcast hosting service.
- Created backend in Java from scratch
- Managed the creation of the frontend with another developer.

Sasquatch finder | developer | <https://github.com/MotoGPete/sasquatch>

A full crud app for reporting sasquatch sightings

- Created a Mysql database to store info on users and their sightings
- Wrote the backend in python with flask

PROFESSIONAL EXPERIENCE

General Manger | *Wing Shack* | Windsor Colorado

- Doubled sales from 2016 to 2021.

[2014-2021]

- Maintained a large crew with average turnover of less than 12%. This is beyond excellent in the restaurant industry, virtually unheard of.
- Always a leader with ideas. Created many practices and standards companywide.
- Top trainer, much of the company's leadership came from my hires who I helped develop.

Executive Chef/Food Beverage Director | *Hilton Garden Inn* | Edinburgh Indiana

[2009-2014]

- Developed excellent customer skills especially pertaining to organizing events and taking specifications from customers and keeping them updated on the details of their event
- Action Verb + What You Did + Outcome/Purpose/Result (remember, quantify & focus on related skills)
- Action Verb + What You Did + Outcome/Purpose/Result (remember, quantify & focus on related skills)
